## Adventures for a Cooler World<sup>SM</sup>

You're looking for more than just another vacation. You want an outdoor experience you'll never forget, in places most people won't ever see—and yet you want to enjoy it all while minimizing your impact on the environment. Green Earth Outdoors can take you there.

Whether it's a fraternity/sorority, college club, faculty team, family, or a private group of friends; we personalize your outdoor adventure from start to finish to unique destinations others may not offer. Green Earth Outdoors is about you and preserving the planet. Our turnkey sustainable business model puts every step of your adventure in harmony with the environment without the impact of traditional adventure travel companies. Any time of the year and nearly any place in North America, if you can envision it, we can get you there. So what will your Green Earth Outdoors adventure be?

### Now Scheduling Trips for 2009 and 2010

It's not too early to plan your outdoor adventure vacation. Because each of our trips provide you or your group with a personal guide, it's important to book as early to get your choice of dates. For that reason we can reserve your trip up to two years in advance. We're also happy to hold your spot if you're ready to go sooner than that. Either way, call us today at 502-475-7445 to get started or use our simple Trip Request Form at [www.greenearthoutdoors.com](http://www.greenearthoutdoors.com)

## Carbon Offset Adventures

At Green Earth Outdoors, our mission revolves around finding sustainable ways to bring families, young people and groups to the outdoors. One of the ways we accomplish this is by minimizing and offsetting our carbon footprint. Green Earth Outdoors offsets 100% of the carbon emissions generated from our trips, programs and daily business operations by purchasing renewable energy certificates or "Green Tags" and participating in other global-cooling initiatives.
